DESCRIPTION

One truth about working with A/V is you always need the cable or adapter you *don't* have in your toolbox. That's why we love these terminal-block RCA connectors so much. **No soldering required!** Use stranded or solid core wire and a small screw driver to create custom wiring jigs.

This is the **RCA (Composite Video, Audio) Female Jack Terminal Block**. RCA is one of the most common A/V connectors.

We also have a (matching) [RCA Male Plug Terminal Block!](#)

New Products 11/25/2015
