LS8EQ

The PanTher Hand-Held Thermal Transfer Printer with QWERTY keypad prints on continuous tapes, continuous heat-shrink tubing, die-cut heat-shrink tubing, general component labels, network component labels, self-laminating wire/cable labels, and nonlaminated wire/cable labels. Eliminating label waste and time associated with trimming labels, it has a partial-cut feature, label cut-to-length functionality, and a PC interface, and it is RoHS compliant. It comes with the hand-held printer, PANTHERLINK software, one cassette of S100X150VAC self-laminating labels, six AA alkaline batteries, and a quick reference card.
