Specifications	
Essentials	
Status	Launched
Launch Date	Q3'13
Expected Discontinuance	1H'17
Description	12Gb/s SAS, 6Gb/s SATA, LSI3008 IOC-based entry-RAID 0,1,1E,10 & JBOD, x8 PCIe 3.0, 8 internal ports, MD2 Low Profile, half-length form factor.
Target Market	Entry
Board Form Factor	Low Profile MD2 Card
Data Transfer Rate	12 Gb/s
Supported Devices	SAS/SATA
RAID Level Supported	0, 1, 1E, 10
JBOD Mode	Yes
# of Ports Internal	8
# of Ports External	0
# of Devices Supported	244
PCIe Host Interface	PCIe x8 Gen3
IO Processor Model	LSI3008
Connector Orientation	Side
Extended Warranty Available for Purchase (Select Countries)	Yes
Additional Extended Warranty Details	<a href="#">Intel® RAID Extended Warranty</a>
Included Items	One RAID adapter with full and low profile brackets
Datasheet	<a href="#">Link</a>
Recommended Customer Price	N/A

### PCN/MDDS Information

928218: PCN | MDDS

All information provided is subject to change at any time, without notice. Intel may make changes to manufacturing life cycle, specifications, and product descriptions at any time, without notice. The information herein is provided "as-is" and Intel does not make any representations or warranties whatsoever regarding accuracy of the information, nor on the product features, availability, functionality, or compatibility of the products listed. Please contact system vendor for more information on specific products or systems.

"Intel classifications" consist of Export Control Classification Numbers (ECCN) and Harmonized Tariff Schedule (HTS) numbers. Any use made of Intel classifications are without recourse to Intel and shall not be construed as a representation or warranty regarding the proper ECCN or HTS. Your company may be the exporter of record, and as such, your company is responsible for determining the correct classification of any item at the time of export.

Refer to Datasheet for formal definitions of product properties and features.

"Announced" SKUs are not yet available. Please refer to the Launch Date for market availability.

"Conflict free" and "conflict-free" means "DRC conflict free", which is defined by the U.S. Securities and Exchange Commission rules to mean products that do not contain conflict minerals (tin, tantalum, tungsten and/or gold) that directly or indirectly finance or benefit armed groups in the Democratic Republic of the Congo (DRC) or adjoining countries. Intel also uses the term "conflict-free" in a broader sense to refer to suppliers, supply chains, smelters and refiners whose sources of conflict minerals do not finance conflict in the DRC or adjoining countries. Intel processors manufactured before January 1, 2013 are not confirmed conflict free. The conflict free designation refers only to product manufactured after that date. For Intel Boxed Processors, the conflict free designation refers to the processor only, not to any additional included accessories, such as heatsinks/coolers.

The Recommended Customer Price is based on a 1,000-unit purchase quantity, and are subject to change without notice. Taxes and shipping, etc. not included. Prices may vary for other package types and shipment quantities, and special promotional arrangements may apply. If sold in bulk, price represents individual unit. Listing of these RCP does not constitute a formal pricing offer from Intel. Please work with your appropriate Intel representative to obtain a formal price quotation.
