

Technical Datasheet

Safety Warning Tapes RoHS Compliant BERST Series (Solid Colored Tapes)

Safety Warning Tapes are made of PVC with rubber-based pressure sensitive adhesive in all OSHA colors. They are available in solid or stripe colors. These safety tapes are designed to be used for floor or aisle marking in a manufacturing or warehouse environment.

APPLICATIONS: Industrial Facilities, Manufacturing, Warehouse, and Law Enforcement

TYPICAL PHYSICAL PROPERTIES ⁽¹⁾

Color	Red or Yellow Solid Colors
Adhesion Type	Solvent Rubber
Material Thickness	5 Mil
Material	PVC
Adhesion	14 oz./in.
Elongation	150%
Tensile Strength	11 lbs./in.
Temperature Rating	60°C (140°F)
Length	36 Yards
UNSPSC Code	31201503

⁽¹⁾ Specifications are subject to change at any time. If you have any questions, please contact us for the latest update.
