

Technical Data Sheet

Clarion Material Code BJ

Primary Use

The Clarion BJ material uses our premium .060 (60-mil.) rigid white plastic sign material. It is primarily used for various commercial, industrial and institutional facility signage applications but is suitable for a variety of applications where high performance in an indoor environment is a requirement. Such applications include but are not limited to facility safety signs, equipment location signs, security signs, environmental awareness sign and construction signs. Clarion BJ material is recommended for mounting to flat surfaces.
