Declaration of RoHS Conformance

The use of certain hazardous substances in the European Union is regulated by EU directives since 2006 (RoHS, RoHS 6). Currently applicable is EU directive 2011/65/EU (RoHS 2). In the meantime, the directive was amended by regulations (EU) 2015/863 (RoHS 3) and (EU) 2017/2102.

SCHURTER reviewed relevant changes and verified compliance of all products to the revised requirements.

Therefore, we hereby confirm that all standard products are conforming to EU-directive 2011/65/EU (RoHS) and its amendments (EU) 2015/863, (EU) 2017/2102.

For individual products, material content and detailed RoHS conformance including application of RoHS exceptions are documented in Product Content Sheets (pcs). These documents are available on our web site www.schurter.com.

SCHURTER AG is renowned for its commitment to environmental protection – as early as in 1996, we were among the first companies to receive the certification for our environmental management system according to ISO 14001. We have issued two SCHURTER Sustainability Reports, which summarize what we have done and how we have shaped up in the field of economic, social and environmental corporate management. The latest report is available on our web site www.schurter.com

Yours sincerely

SCHURTER AG

Rolf Nussbaumer
